CAREER OBJECTIVE

Eager to find an entry-level position in software development while pursuing my degree. I bring a strong work ethic, the ability to learn quickly and a passion for programming.

SUMMARY OF QUALIFICATIONS

I have worked on several projects as a part of my curriculum, most involving Python and C#. The link to those projects source code is listed to the right. I am also a part of a student lead group where we learn together how to build web applications. In this group I have worked with Python, HTML, CSS, JavaScript, SQL, and the Django framework. I also have personal experience building computers, installing software, and general hardware maintenance.
